ABSTRACTED-PUB-NO: SU 1762951A

BASIC-ABSTRACT:

Device comprises base (1) with frame (2) on which are mounted shock absorbers (3), and targets (4,5) made of an elastic material. Target (4) represents the opponent's head and target (5) the body. The base has three legs (6) at an angle of 120 deg w.r.t. one another. These have castors (7) on them. The rhomboid-shaped frame (2) can rotate around the vertical axis of the device driven by an electric motor and battery, and has coloured gussets (9) in its

corners.

USE/ADVANTAGE - For sports use, increases effectiveness of training.
